Disbursements such as, but not limited to expert's reports, medical fees, Counsel's fees and travel costs– both mileage and parking fees, or train fares - are not covered under these fixed fees. These expenses will by their very nature be variable in price, but we will not incur any additional costs without your express agreement. Please speak to the Fee Earner who will be able to give you an estimate of the fees.

In addition any appeal following on from such a hearing would incur additional costs.

There is normally an initial hearing, which is normally in your absence, when a hearing is fixed to sentence or deal with any legal arguments. A pure sentencing hearing is normally fixed within a month. Legal arguments and trials are normally fixed within a couple of months of the initial hearing. If a case is committed to the Crown Court then this is within 4 weeks of the first court hearing. Trials in the Crown Court are taking considerably longer.

During the Covid pandemic all timescales are being extended. Many road traffic matters are not being prioritised and so they may take longer to be heard. Please speak to the Fee Earner at the time who will be able to give you a better idea of the typical timescale at the time.
